7:00 pm - 12:00 pm
Contests, Prizes, Music & Food

Dr. William Chen

Dr. William Chen is the author of "The Clinical Applications of the Er,Cr:YSGG Laser Systems", which is the first and the only textbook on Waterlase Technology. He graduated from Washington University School of Dental Medicine and has been in private practice in Granite City, IL for over 33 years. He was the chief investigator for Biolase in getting FDA approval for Laser Root Canal Therapy and Laser Bone Applications. He is a Master of the World Clinical Laser Institute and an Educator of the Academy of Laser Dentistry. His honors and awards include Fellow of the American College of Dentists, Fellow of the International College of Dentists, Fellow and Master of the Academy of General Dentistry.

Dr. Christina Do

Dr. Christina Do is a graduate of Loma Linda University School of Dentistry. In addition to her private practice, Dr. Do has lectured extensively on the development and trends in laser dentistry throughout the nation and at local dental conferences. Dr. Do has been featured in the California Dental Association newsletter for her animated children's educational DVD. Her "ToothTales" DVD has received numerous accolades including 1st place for People's Choice. "ToothTales" was so widely received which resulted in numerous additional episodes. Dr. Do has also been featured on the show "The Doctors" for her expertise in laser dentistry. Dr. Do is also actively involved in providing dentistry to citizens of countries where there is little access to modern dental care.

Dr. Bret Dyer

Dr. Bret Dyer attended Baylor College of Dentistry to receive his DDS degree. He earned a Master of Science in Periodontics at the University of Texas Dental School in Houston. Dr. Dyer is a Diplomate of the American Board of Periodontology and has a Mastership certification from the WCLI. Dr. Dyer is in private practice in Sugar Land, TX. He was one of the first periodontists to receive a grant for research in private practice from the American Periodontal Foundation. He has published in reference journals on his research in guided tissue regeneration. Current research projects utilize the laser for regenerative and cosmetic periodontal procedures. Dr. Dyer lectures nationally and internationally on laser applications in periodontal treatment and implantology.

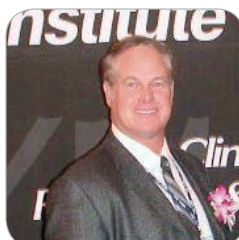

Dr. David Eshom

Dr. Eshom is a general dentist who emphasizes dental health and beauty for his patients in his private practice in San Diego, CA. He has his undergraduate degree in business and his DDS from the University of Pacific. He is an accredited member of the AACD and served six years on the Board of Directors the AACD and is presently Co-chair of the annual meeting/education committee for AACD. He lectures domestically and internationally on practice management, cosmetics and laser dentistry. His practice was honored by being featured on the cover of Dental Economics magazine. Recently, he was honored with an award for cosmetic practice of the year in Contemporary Esthetics magazine. His practice of 25 years uses high-tech instruments to make the dental experience for his patients comfortable and unique.

Dr. Howard Golan

Dr. Howard Golan is a graduate of the University of Michigan School of Dentistry. He completed a general practice residency at North Shore University Hospital on Long Island, NY. After his GPR, Dr. Golan completed a two-year Implant Surgery and Advanced Prosthetic Fellowship at NSUH. He has maintained a busy private practice on Long Island that he shares with his father Dr. Marshall Golan. Dr. Golan implemented lasers into his practice in 2004 and has attained his Mastership certification in the World Clinical Laser Institute. Dr. Golan has been fortunate to be asked to lecture and teach laser-assisted dentistry throughout the United States and Internationally. He is the co-founder of the Center for Laser Education and is a faculty member with the World Clinical Laser Institute teaching Certification Training Courses for that organization.

Dr. John Hendy

Dr. John Hendy graduated from University of California at Riverside in 1974. He graduated at the top of his class in 1977 from the University of the Pacific Dental School with membership in TKO and OKU dental honor fraternities. During dental school a first place was won for scientific research from the ADA. He also presented his research paper to the IADR in New York. Dr. Hendy is diplomate of the National Board of Dental Anesthesiology and maintains a fellowship. He also has a fellowship and a mastership with the World Clinical Laser Institute. His research into laser perio has resulted in a patented tip design for the YSGG laser.
